

Hamilton County Developmental Disabilities Services

*Promote and support opportunities for people with developmental disabilities
to live, work, learn and fully participate in their communities*

Introduction & Eligibility

To learn more about the services and supports we offer, call Introduction & Eligibility at (513) 559-6990. For children younger than age 3, call Ohio Early Intervention at (800) 755-4769.

Service and Support

An agency staff member called a Service and Support Administrator (SSA) works closely with individuals and families to develop and carry out plans for the future.

Residential Services & Supported Living

Individuals are supported to live as they choose: independently, with family, in a group home or elsewhere.

Self-Determination

Individuals have control over their own lives to choose supports and services. Choices are made with assistance from a team chosen by the individual.

Children

Early Intervention

Teams of specialists work with families to educate parents and support children younger than age 3 with developmental delays and a medical diagnosis. One team member serves as the child's Primary Service Provider (PSP), though other team members or therapists may visit the family if needed.

School Age

The agency operates two schools for students with significant disabilities, who are enrolled through their home school district. A team of transition consultants helps individuals transition from school to adulthood.

Adults

Employment

We work with local businesses and agencies to help families and individuals discover opportunities and navigate the path to employment. Our agency and vocational service providers assist job seekers throughout every step of the process.

In the Community

Our goal is to create real opportunities for people with DD to regularly engage with family and friends, contribute to and be part of the community, get a job and an education, and live a life reflective of their individual choices.

Service Providers

A network of providers, in partnership with the agency, offers a wide range of services. For children younger than age 3, call Ohio Early Intervention at (800) 755-4769
